(FIT CARLE AND ASSOCIATED PRIM.)
CANTON, July 9.—Shellifice from a fort controlled by Chen Chiung-Ming, Chinese unificationist leader, destroyed today the munitions base of Sun Yat Sen, the deposed president of the Canton government, and it was reported tonight that Sun, with three cruisers, had departed down the river toward Hong Kong. A number of casualties accompanied the destruction of Sun's munitions factory, which was situated near-Whampoa.
The cruisers may encounter trouble at Tiger Island, a fortress there miles from Canton held by the Chen forces, and it is believed in some quarters that Sun's Seet has been bettled up.

The guns of Fort Yucchu opened an attack on the Sun Yat Sen fleet this afternoon near Whampoa. down the river from here, but Sun withdrew four of his six ships three miles down the river to Suncho, out of range of the Tuechu

control, replied to the bombard-ment from Yuechu, but Sun's ships, although stripped for battle, did not fire, apparebtly desiring to conserve their ammunition for an emergency, as Sun believes forces from the north soon will reinforce him.

Sun's northern expedition, attempting to return from an invasion of Kiangsi province is opposed by Chen Chiung-Ming's troops at Shiukwan, a hundred miles from Canton, where considerable-fighting has taken place.

MILITARY CONSIDERED

"In Texas the following trunk highways are considered essential from the standpoint of military operations slong the border: San Antonio to the lower Rio Grande Valley; San Antonio to Del Rio, with branch road to Eagle Pass; along the Rio Grande from Brownsville to Del Rio, thence westerly to Marfa and El Paso, with connections southward from Marfa to Rio. Grande points; also from San Antonio to Corpus Christi: Standard Federal highways from San Antonio to Houston, Galveston and Orange are also regarded as important.

"A standard highway running along the Mexican border through New Mexico, Arizona and California is also rated of first importance by the War Department.

"Considered as a whole, the proposed transcontinental trunk highway from Jacksonville to San Diego, with its connections to border points, is an essential element in the pisms being formulated by the War Department for national defense and should be completed without delay, according to the best Federal standards for road construction."

coach loads of Mexican laborers are reported to have been smuggled into the Southern Pacific yards here late this afternoon in preparation for resuming operations at the ice ing plant of the Pacific Fruit Express Company tomorrow. The strike breakers were brought here from Los Angeles. With their coming, the cordon of railroad guards was increased by two truck loads of recruits from Sacramento. Strikers were ignorant of the new move to ice refrigerator cars for several hours, but tonight groups of shopmen and striking employes of the Fruit Express Company are gathered about the strikers discussing the situation. HAYWARD. July 5.—Only the prompt action of police saved Frank Titsos, wealthy safe owner of Hayward, from rough treatment at the hands of a mob here today.

Charles M. Welch, 50, alighting from a street car, was struck by an automobile driven by Titsos. Welch's body was huried thirty feet by the impact and both his hips were broken. He is also believed to have suffered internal injuries.

Then, according to witnesses. Titsos is allaged to have attempted to fiee without stopping to ascertain the extent of Welch's injuries. In a few moments his automobile was the center of an angry, surging crowd.

Police answering a hurry call arrived on the scene, and, with revolvers drawn, escorted Titsos to the office of Police Judge Jacob Hader, Jr., where the officers stood guard to prevent the crowd from breaking in.

Titsos later was spirited away and taken to the county jail in Oakland.

Corn belt farmers will be particularly interested in the survey, because anything that leads to the development of live-stock production in the western States will have its effect on live-stock production in the centres west States. According to announcement of the plans, a big stockyard will be located at Los Angeles and will be developed along the lines of the Union Stockyards at Chicago. Live stock will be dawn to the Pacific Coast market from Utah, Idaho, Nevada, California, Arisona and New Maxico. Near the stockyards packing-houses will be built to take care of the live stock coming from these six States, as the practice of sending hundreds and thousands of range cattle to the Chicago live-stock market will be discontinued.

TULARE, July 8.—The city of
Tulare has a living memorial in
the form of a winsome baby girl,
Miss "Tulare" Ford, daughter of
Mr. and Mrs. Dan C. Ford, residents on a ranch east of Tulare.
The name has been bestowed
upon the little miss who was
born June 26, and was the subject of much comment at the City
Hall. "Tulare" is declared to be
a pretty name, but officials state
this is the first time they have

Vanguard of Delegates in Los Angeles Today

Expect Attendance to Break Association Record

Famous Practitioners Are to Speak at Meeting

The vanguard of 5000 dentiets expected to attend the twenty-sixth annual convention of the National Dental Association in Los Angeles, will reach here today when a special train from Chicago will arrive over the Union Pacific. The convention will open a week from today and continue four days.

Several hundred dentists and members of their families are on the special train, which left the Windy City last Friday. A majority of the delegates are members of the National Dental Golf Association, which will hold its third annual tournament in connection with the convention. At least 500 dental golfers are expected to participate in the tournament.

Members of the extertainment committee, headed by Dr. J. Franklyn Cook, will meet the special train when it pulls in at 4 p.m. today. Other delegates aiready are beginning to arrive on the regular trains from the East. The visiting dentists will continue to swarm into Loc Angeles in increasing numbers all week. Three other special trains are an route from New York, Chicago and Minneapolis.

Many eastern delegates are coming to the convention by way of the northern part of the State will organize a motor coarsavan to bring California's visitors to Loc Angeles over the scenic State highway. This caravan will leave San Francisco on Saturday.

The National Dental Association now has a membership of 25,000. This is the first time in the history of the organization that the convention has been held west of the Rockies. Elaborate plans are being made by the Southern Callfornia Dental Association, with the co-operation of dentists throughout the State, to give the visitors a rousing welcome to the Golden West.

The slogan adopted for this year's meeting is "Add Ten Tears to Human Life." Seasions on research, oral hygiens, oral surgery and many other branches of deniistry are scheduled. A public dental health clinic and exhibit will be conducted at the Ambassador.

On the 19th inst. a public meeting will be held at Trinity Auditor'um. Authorities on dental hygiene will address the meeting. In addition to the golf tournament, a trapshooting meet will be held at the Vernon Gun Club. Other forms of recreation size will be program dells for motor trips to points of interest in Southern Callfornia and a Spanish barbecue at Hollywood Bowl.

One of the beautiful and effective features is the lighting, and this with the musical accompaniment has required the utmost attention of the artists in charge in order that it may be perfectly timed with the scenes and action of the story.

timed with the scenes and action of the story.

This year's presentation of the beautiful drama pageant will surpass those of the two seasons previous in its entirety and in many specific features the play has been strengthened by the addition of new scenes and the streaming of others.

One of the most striking scenes, new to the production is that in the court of Herod, where Salome

According to a report made to the Central Police Station by Patrolman I. S. Bruce, he observed a machine in which Miller and J. B. Fee, 35 years of age, were riding, careening wildly about Santa Barbara avenue.

Patrolman Bruce reported that he stopped the car and an argument ensued, the climax of which, the officer says, came when Miller threw a bottle at him and then leaped out of the car and ara. The officer declared that the man was injured when he fell while running.

Fee was placed in jail on a charge of reckless driving and Milled was placed under surveillance.

Fisher street, Belvedere, early year the man met death by his own hand or died from natural causes was not determined in a preliminary investigation made by Dep. Sheriffs Olds and Shea. They stated they found under the pillow a fully loaded automatic pistol which had apparently not been used recently, and a note in another room of the house which read: "Awful pains in chest; may be indigestion."

From what the deputies could learn from neighbors of the aged man's movements during the last week, they believed that he had been dead for several days. His wife, it was said, will return home this morning from a trip to Balboa Beach. The body was removed to the French & Son undertaking establishment in Belvedere.

Harry Collins to write on Dress for Modern Priscilla

New York's most famous costume designer will tell women how to dress not only fashionably but artistically—in an illuminating series of articles accompanied by original sketches

ANOTHER authority added to Modern Priscilla's famous list of contributors!

The trend of fashion and the art of dress will be clearly set forth in Modern Priscilla, beginning with the October issue, by no less an authority than Mr. Harry Collins, New York's foremost costume designer and critic—the same Harry Collins who designed Mrs. Harding's inaugural gown, and who is recognized as the most ardent and authoritative exponent of artistic dress oritative exponent of artistic dress

It is not enough to recognize that a woman has a face, Mr. Collins ex-plains. Correct dress is based on an understanding of the lines of the human figure. Too many women dress merely to enhance the beauty of the face; whereas a costume should be built from the toe to-the

Mr. Collins decries a slavish fol-lowing of fashion, urging in its place an adaptation of the fashion to the individual—a development of the discriminating sense.

Color, harmony, textures, taste, will enter into Mr. Collins' monthly discussions—all converging to the discussions—all converging to the basic underlying principle, the correct lines.

These articles will be of such import to the women of America that they will constitute practically a college course in dress appreciation.

They will appear exclusively in Modern Priscilla. It is expected that hundreds of thousands of women will not only follow these articles with tremendous interest, but will keep the issues from month to month as a permanent guide on the New as a permanent guide on the New Art of Correct Dress.

Each article will be accompanied by original aketches designed espe-cially for Modern Priscilla by Harry Collins.

S. Kone, proprietor on a sapanesse needle cafe at a04 East Sevential street, fleeing from bandits yesterday morning, jumped out of his room above the cafe and landed on the sidewalk two stories below, suffering a possible fractured ankle. A \$30 bill was given to Kono by two men in payment for two bowls of needles. Kono, not having the change in his pocket, mounted the stairs to his room where private cash is kept. He was about to return, he stated, when he discovered that the two men had followed him with drawn revolvers.

"Wash" - Don't Scratch or Scour Teeth

Gritty, soapless tooth pastes may show quick results. If you scour away your skin, nature can replace it But even Nature will not replace tooth enamel once it has been worn away by gritty, soapless tooth pastes.

The most effective and trustworthy method of keeping your teeth bright and smiling is the use of a gentle, "washing" nongritty dental cream.

COLGATE'S CLEANS TEETH THE RIGHT WAY "Washes" and Polishes - Doesn't Scratch or Scour

T IS A DOUBLE ACTION DENTIFRICE: (1) Loosens clinging particles. (2) Washes them away.

Sensible in Theory. You can't best common sense when backed by modern science. Healthy saltva is practically neu-tral, sometimes slightly alkaline. Colgate's Ribbon Dental Cream is mildly alkaline, practically neutral, and cleanses without disturbing nature's balance. Avoid dentifrices that are strongly alkaline or appreciably acid. Colgate's helps to

Correct in Practice. Today scientific dentists know that harsh drugs and chemicals harm mouth tissues. Colgate's Ribbon Dental Cream does not contain them. Authorities agree that a dentifrice them. Authorities agree that a dentifrice should do only one thing—clean teeth thoroughly. Colgate's does this. No false claims are made that Colgate's possesses any other virtue, but it does possess this one in the highest degree, and in a higher degree than any other kind of dentifrice.

is seeking to cover up its own costly blun-dering and wastefulness with a flood of gold from the pockets of taxpayers. It is asking for \$65,000,000 more by direct tax-ation, not to build more roads, but to re-build those already constructed. The roads upon which the State board seeks to spend this great sum of money are not old roads which have given long service. The State highway program is only ten years old and a considerable portion of the State highways has been constructed in the past three or four years. hree or four years. The State Highway Board was charge

and wastefully. An engineering repo the two great automobile organizations of the State said that 26 per cent of the roads in the entire State system, although comparatively new, had falled and required reconstruction. The report said that 30 per cent of the 600 miles in Southern Caliornia had failed.

fornia had failed.

The State board denied the charge. It said that not more than 10 per cent of the roads needed reconstruction. Gov. Stephens, in a public statement, sustained the Highway Board. Efforts to substitute efficiency for wastefulness and good roads for inadequate ones have been repeatedly rebuffed by the Highway Board. Gov. Stephens arroganity snubbed critics of the State highways and said they were insincere and actuated by political motives.

But a fact so conspicuous as the failure of the State Highway Commission cannot be changed by denials. The highways have failed just as it was charged. Hundreds

failed just as it was charged. Hundreds of thousands of motorists have seen it for themselves. Now the State commission has the effrontery to ask for almost as much money as has been expended in ten years to build State roads in order to build hem over again.

Good Morning, Holt:-

Here's hoping things are com. ing your way-lots of them.

It's a great thing to really expect success. In fact, it's just about half the battle.

A fellow by the name of Bocard, a "printer-author" of Florence, was one of the original optimists.
In 1507 he published a book

with this inscription: May this volume continue in motion And its pages each day be unfuried Till an ant has drank up the ocean

Or a tortoise has cramled round the work. He expected things, didn't her Why can't we start something in "motion" for you? Some good printed sales material—the kind that works while you are busy with something else?

Let's talk things over-we are helping others—we are helping ourselves—why not you?

What? You bet we can! Sincerely,

FOREWORD: At a banquet given recently by local fencers an open challenge was issued in behalf of Harry Uyttenhave, claimant of the American fencing championship. Almost immediately thereafter Frederic Cavens, through Capt. Arthur Saint-Remie, accepted the gaunt-let. None of the principals or seconds could agree on time, place or weapons to be used for some time. Later, however, it was reported that the type of weapons was decided upon, but the other conditions were still up in the air. The champion is fencing instructor at the Los Angeles Athletic Club, while the challenger is an assistant to Saint-Remie, teacher of fencing at the Union League Club. Both titleholder and contender are practicing daily for the forthcoming duel.

# Southern California comes to Cycol

Cycol dealers have shown remarkable sales increases since Cycol was recently introduced here. Motorists were quick to respond to this power saving, engine saving, money saving motor oil. The reason for Cycol superiority is in its freedom from destructive "sulpho" compounds. These are the impurities which cause oil to break down and thin out rapidly under engine heatthe impurities which cause power loss, engine troubles and heavy repairs.

Cycol was made possible by the new Hexeon Process, used solely by us. This process frees Cycol of all destructive "sulpho" compounds. As a result Cycol maintains the essential lubricating film between moving parts -retains its body under engine heat and prevents excessive friction wear.

The Cycol Chart, which every Cycol dealer has, shows the correct grade of Cycol to use in your engine. For best results, follow the recommendations of this

# **TEW INTERPRETATION GIVEN FAMILIAR WORDS**

## Pastors Emphasize the Necessity food it of Concentration on Things Divine

Science and philosophy, as well as a deeper study of religion, are lending new interpretation to the words, "In the midst of life we are in death." Any man who will open his eyes to the marvelous inventions of the day, to the progress of the world peace and plenty, to the never-ending miracles of nature and to those shining mysteries that may be sensed in and behind all visible phenomens, cannot but be startled by the sudden revelation of divine power and glory. Daring thus to open his eyes, to think and to investigate, such a man is certain to come to the conclusion that in the midst of all this immensity of life he has too long remained blind, has been as one dead, and he will perceive that in the midst of all that is apparently dead the life of the infinite is forever pulsing. The necessity for prayer, for meditation, for concentration on things divine, if one would truly live, was emphasized in sermons preached from Los Angeles pulpits yesterday.

Excerpts from some of these sermons are printed below:

Declaring that the law of the large is adoemed and that the law that man ever invented or made

## VOICES NEED FOR

### BROADER RELIGION

e of the reassuring indicaons of our day is the earnestness

the Universalist Church yesterday.
"It must be an ethical religion that grips and fires the conscience, a reasonable religion, square with all known truth and common sense, a vital religion creative of pure actions and high enthusiasma," said Dr. Nash.
"The degradation of God is one of the salient counts in this indictment. A defty who is less just than just men, less gentle and considerate than our best humanity; who sits glowering on his throne and can be appeased only by the shed blood of the innocent; who is so tangled and bound with the red tape of a system that he is not at liberty to be good—such a conception, as it forms the ideals and standards of believers, can only revolt the natural spirit of serious men, and close the heart of the world to the appeals of the church. If religion is to sway the activities of the future, it must free itself from the artificial and barbarous fantasies of the world's nonage, and rest in the sane and spiritual simplicities of Jesus."

ground.

While iron is to be found in all parts of Arizona, and large deposits have been surveyed northwest of Phoenix, south of Seligman and at other points, there is understanding that the ore carries too large a percentage of phosphorus for commercial uses. Immense quantities of iron also are poured annually on the dumps of the copper smelters, for lack of a workable process for separation of the metal from the slag.

is stated.

The forty-acre lease on which Mexian No. 7, the recently completed well, is located is now estimated to be worth \$1,000,000.

Mexian No. 7 was drilled to a depth of \$595 feet. It went but four feet into pay sand when it was shot and the blast sent the oil 100 feet above the derrick, it is stated. After flowing several hours it suddenly took on increased volume and produced nearly \$7500 worth of oil in the first twenty-eight hours.

Within five hours after Mexian No. 7 was completed a contract was let for the drilling of another well on the same lease, to be known as Mexian No. 7-B.

Mexian No. 7 went to the lowest sand in the Bunger field, known as the Roarch pay sand. The sand derives it name from the Roarch well, which has already produced more than 150,000 barrels of oil and is regarded as one of the most dependable and steadlest producers in Texas.

"RIENZI" OVERTURE

LEADS OFF PROGRAM Memories of Alfred Heriz's long association with Wagnerian opera at the Metropolitan will be recalled with the opening number of the concert program tomorrow night at the Hollywood Bowl. He is to play the overture to "Rienzi," one of the most imposing of the earlier, set places of the master of music drami. It is regarded as especially fitting for the premier selection of the open-air orchestral festival.

Mr. Herts was for more than tem years conductor of Wagnerian opera at the Metropolitan. He was the first to introduce "Parsifal" to this country, and he also led the first presentation of "Sallome." His directing of Wagnerian works is recognizedly of the high
weeks and is as full of hokum, as nalve in development, as an Owen Davis melodrama of 1912 vintage. Where are the lance-like Maugham sattre, breezy, whimsy, fresh angles on life? All absent, alsa Instead there is the obliging heroine marrying the rich man to help her family, hesitating the fatal moment about giving him the medicine for his heart disease so that he drops dead. Whose family all go bad on her as soon as she gets her husband's fortune, sister developing a love of iasa, and loma. lome." His directing of Wagnerian works is recognisedly of the highest standard, and for this reason his every interpretation of Wagner will be awaited with especial interest by the audiences at the Bowl concerts."

On the opening program are also the Hingarian Dances by Brahms the "Feer Gynt" suites by Griec the Hisbesilied" and "Liebesfreud," by Fritz Kreisler and the overture to Rodsini's "William Tell."

The setting for the concerts is the same that was used so effectively for the open "Carmen" which was attended by nearly thirty thouse and persons last Saturday night. The remarkable acoustic properties of the Bowl are expected to attract shoat of music lovers to the concerts, which promise, under Mr. Hertz's baton, to be of exceptional character.

CARROLL HEADLINES

Harry Carroll, the cleverest of the young song-writers of New York, will bring for the first time his "Varieties of 1922" to the Orpheum opening today. Carroll was here several years ago, with Anna Wheaton, but his big success has come since then. This has made it impossible for him to leave the East. However, he "ran away" for a brief season on this Coast, and with him he brings a cotterie of principals and "aix silck chicks," all of whom have important parts in his big song revue.

Glanagan and Morrison in their smart goif act, and George Kelly's latest comedy, "The Show-off." will be added to the bill also.

Fracture in Third WEEK "Science—Or God." the Mission Fill Corporation's first production. is being held over for a third week at Tally's Broadway Theater. A long run is predicted for the feature, which has been attracting much attention because of the unsual theme. The principal roles are played by Richard Wayne, Winter Hall, Lillian Leighton, Catherine Murphy, Margaret Loomis, Clarence Geldert, Arthur Osbourne, Felippe de Lacy, Jack Adams and Dorothy Martin.
